Medical Director
Schlessinger Eye and Face

**CHOOSE THE DOCTOR
THAT OTHER DOCTORS CHOOSE**

Board Certified by the American Board of Ophthalmology and a Fellow of the Academy of Cosmetic Surgery, Dr. Schlessinger is a renowned surgeon in his field having been listed among "New York's Top 100 Physicians, for Oculoplastic Surgery", in *Castle Connelly's* prestigious America's Top Cosmetic Doctors.

Numerous respected physicians entrust not only the care of their own patients to Dr. Schlessinger, but many of those same physicians themselves can be counted among his patients.

Dr. Schlessinger specializes in a variety of facial cosmetic procedures including, but not limited to: Blepharoplasty (Eyelid Surgery/ Removal of Excess Skin and/or Bags around the Eyes), Eyelid Reconstruction, BrowLift, Mid-Facelift, ThreadLift and Laser Skin Resurfacing.

Non-surgical facial rejuvenation options include Botox®Cosmetic, Restylane®, Radiesse®, Juvaderm™ and other replacement therapies, as well as IPL Laser Treatments and Chemical Peels.

BE INFORMED

Schlessinger Eye and Face regularly has seminars to discuss the newest facial rejuvenation techniques.

We know an informed patient is best and our seminars provide information for those patients who are considering their surgical and non-surgical options in facial rejuvenation, but still have unanswered questions. Seminars fill up quickly and space is limited, so reservations are required.

~All seminars are hosted at our Woodbury office~

LET'S HAVE LUNCH

Did you know many of our cosmetic treatments can be done on your lunch break?

That's right! We offer many procedures that can be performed in under an hour.

With immediate results and no visible signs of the procedure, you can walk out of our office and get right back to what's important...*your life*.

Make lines & wrinkles vanish instantly, get the voluptuous lips you always wanted, remove undesirable sun & age spots and broken capillaries from your face and more.

Warning: We can not be held responsible for those colleagues wanting to know what hot new place you're lunching at.

FACIAL REJUVENATION TREATMENTS

BOTOX® COSMETIC Injections

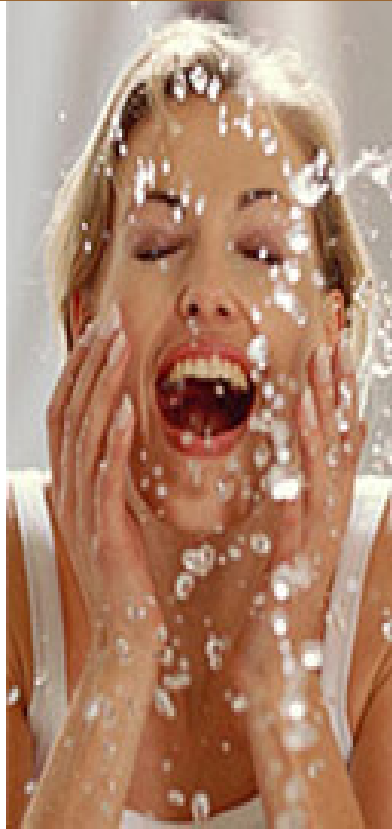

This simple and safe procedure takes only ten minutes and requires no down-time. Botox injections relax the muscles that cause lines to form on the forehead, between the eyebrows and around the eyes. Dr. Schlessinger offers a non-surgical brow lift, using Botox, to create an eyebrow arch that diminishes forehead lines, while preserving natural expression. Known as the “Schlessinger Arch,” it has become one of our most requested lunch-time procedures. Botox is an effective means of reversing the visible signs of aging. Results can be seen within a few days and can last 3-6 months.

RADIESSE®, RESTYLANE®, JUVEDERM™ and other Wrinkle Fillers and Replacement Therapies

Facial lines, wrinkles, lips and scars can now be instantly smoothed, softened and plumped. Dr. Schlessinger can help you decide which filler is best for you.

PHOTO REJUVENATION

Fluorescent pulsed light is used to effectively treat facial redness, freckles, sun damage, broken blood vessels promoting smoother skin and reducing irregular skin pigmentation restoring a youthful, glowing appearance. This is a lunch-time procedure with no downtime.

TCA Facial Treatment

Bring back the glow of healthy skin! A TCA treatment will remove outer layers of dead skin (including hyperpigmented areas), encouraging cell renewal to reveal a fresher, younger, more revitalized complexion. Recommended for most skin types, especially mature and sun-damaged skin. Patients can expect to peel for five to seven days.

REFINITY (70 % Glycolic Acid) Treatment

This peel uses 70% glycolic acid combined with a unique anti-inflammatory agent to deliver a rapid exfoliation of the top layers of skin without redness or discomfort.

SKIN CARE Line

Our pharmaceutical grade products offer protection from the ravages of the sun and environment, and may help prevent further deterioration, correct discoloration and help restore luster, brightness and a glowing appearance to sun damaged and dull matte skin. We will prescribe a personalized treatment and skin care regimen to address *your* individual skin care needs. Our product line includes: rejuvenating serums, eye creams, & skin protection. Used alone or in combination with our other cosmetic treatments, you can be assured of always putting your best face forward.

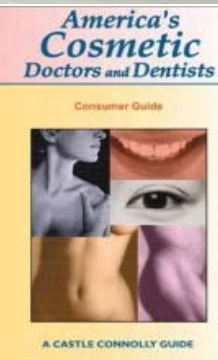

IN THE NEWS

Dr. Schlessinger has been featured in many publications. Most recently he was interviewed, as a Botox® expert, for the article “Botox Bonanza” (Woodbury Magazine, Spring 2007) A member of the Botox® Cosmetic Physician’s Network, Dr. Schlessinger is highly skilled in the safe, skilled administration of Botox® as well as the latest facial fillers and other injectable therapies.

Dr. Schlessinger is a renowned surgeon in the field of Oculoplastic Surgery.
