

Cosmetic Surgery is Here to Help

by Dr. David Schlessinger

Cosmetic Surgery is here to stay. Now that we are living longer, working longer and staying healthier, we all want to look as good as we feel. With so many options for rejuvenation, how do know where to turn? The answer is to turn to the Surgeon who is most qualified to take care of your individual needs.

The art of Cosmetic Surgery has advanced, as has all aspects of medical care. Years ago, we expected our family Doctor to do everything from treating colds to delivering babies. As medicine advances, patients have become aware of the necessity to enlist a Specialist to target their specific medical needs. This also holds true for cosmetic surgery. The Surgeon highly proficient at liposuction may not be the best choice for eyelid surgery.

Dr. David Schlessinger is not just another Cosmetic Surgeon. He is a Board Certified and Fellowship trained Ophthalmic Plastic

Surgeon. He is specially trained in Cosmetic and Reconstructive surgery of the eyelids and upper face. With over 12 years of experience, Dr. Schlessinger is the surgeon other surgeons choose for their eyelid Surgery.

Recognized as a premiere eyelid and facial plastic surgeon, Dr. Schlessinger performs both cosmetic and reconstructive eyelid surgery. "Unfortunately, complications of eyelid surgery can occur" Dr. Schlessinger tells us. "As an Ophthalmic Plastic Surgeon, I am often asked by other surgeons to repair complex eyelid problems."

With over 12 years of experience, Dr. Schlessinger is the surgeon other surgeons choose for their eyelid surgery.

The wife of a local ophthalmologist tells us "My husband has seen the results of dozens of plastic surgeons in the area. When it came time for my surgery, we chose Dr. Schlessinger. I am thrilled with the results."

As the medical director of Schlessinger Eye and Face, Dr. Schlessinger is also one of the areas most experienced injector of Botox and Restylane. He frequently lectures to other area Doctors and teaches both cosmetic and reconstructive procedures to area Ophthalmology residents.

Dr. Schlessinger has offices in Woodbury and Hauppauge. For more information or a complimentary consultation, call 516486-2122 or 631.582.2160. www.schlessingereyeandface.com.
