## THE MEDSPA AT SCHLESSINGER EYE & FACE

The Med-Spa at Schlessinger Eye & Face is our new state of the art medical spa, offering the widest range of advanced esthetic treatments to address all personal needs. We offer solutions to premature aging & wrinkling, acne, Rosacea, & unwanted hair on the body & face. We provide results for enhancing one's appearance from resurfacing & rejuvenating aging skin to the creating a more even-toned, blemish free complexion that radiates youth & vitality. Our services include laser hair removal, Microdermabrasion, Intense Pulsed Light Photo facial, anti-aging & acne facials, eyelash tinting & shaping, body exfoliation treatments & mineral makeup services & cosmetics. Botox cosmetic & Restylane are also available and a very popular method of taking years off your appearance.

Our mission is to provide education, results & the highest quality of services to our patients. Our trained estheticians recognize the importance of treating the skin from the inside out. A patient's lifestyle & nutritional habits are considered when assessing the skin and it's condition. Optimal health, in addition to observational skin analysis is pertinent in creating an appropriate "results-orientated" skin care program. Educating the patient on how to care for their skin, and what treatments deem appropriate help result in creating optimal skin wellness. Radiant, youthful skin, free of blemishes and sun damage may be achieved with diligence, and a commitment to healthy skin practices. Your skin is a reflection of how you treat it. Be good to your skin and it will be good to you.
